StyleView 41 Cart— Sliding Worksurface

- Offers a larger worksurface with more room to complete tasks and space for a keyboard and mouse
- Features a sliding worksurface that locks at 12 cm, providing a comfortable working distance from the monitor
- Includes a heavy duty monitor riser as standard to support multiple configurations, including all-in-one computers, with a maximum weight of 10,9 kg
- Responds to caregivers' touch so nurses can effortlessly maneuver to the point of need and focus on their patients
- Uses a single motion fluid adjustment to switch between sitting and standing, promoting caregiver wellness and productivity
- Supports a wide range of accessories with rear T-slot mounting channel
- Five-year warranty

EASY-TO-MANEUVER MEDICAL CART OFFERS
SPACIOUS, ADJUSTABLE WORKSURFACE

STYLEVIEW™

This innovative and easy-to-maneuver healthcare cart features sit-to-stand height adjustment (63,5 cm total), independent screen positioning and a larger worksurface with room for a keyboard and mouse, without the need for an additional tray. The worksurface slides out and locks at 12 cm, providing a comfortable working distance from the monitor.

The StyleView 41—Sliding Worksurface comes standard with a heavy-duty monitor lift to support multiple configurations, including all-in-one computers, with a maximum weight of 10,9 kg. It travels easily across carpet or hard surface floors with ultra-smooth gliding casters and has a small footprint, so it's perfect for space-constrained areas.

STYLEVIEW™

- 1 Supports displays and all-in-one computers up to 24" and provides 25 degrees of tilt and 90 degrees of rotation. Portrait orientation may be incompatible with wide-screen displays > 19"
- 2 Heavy-duty monitor lift supports multiple configurations with a maximum weight of 10,9 kg
- 3 Spacious worksurface (55,6 x 59,6 cm) extends out 12 cm to fit a keyboard, mouse and other small items
- 4 Rear basket stores task-related items for easy access
- 5 Optional front tray accessory moves in tandem with the height-adjustable worksurface
- 6 Supports a wide range of accessories with rear T-slot mounting channel
- 7 Four 4" (10,2 cm) casters with bearings for smooth gliding are designed to last; two front casters are lockable
- 8 Compact wheel-to-wheel base dimensions: 43 x 53,3 cm

Keyboard, mouse and other small items fit on top of the spacious worksurface without the need for a separate keyboard tray

Extendable worksurface pulls out 12 cm to expose a convenient storage space

Optional front tray accessory moves in tandem with the worksurface (98-134)

Durable, easy-to-clean exterior composed of aluminum, high-grade plastic and zinc-plated steel
